Metzger Air Filters for Turbocharger Pressure Converters

For a smooth engine operation and maximum performance.

Our air filters deliver precise control, optimal engine performance, and long-term reliability. Engineered to meet the highest standards – robust, efficient, and perfectly matched.

Trust in quality that makes the difference!

**Exclusively from
Metzger Autoteile.**

Part no.: 2385152
corresponds to: OE 7H0 129 965*
Car applications: e.g. VW T5, T6

Hinweis:

When replacing a turbocharger pressure converter, it is highly recommended to also check the air filter. An exhausted air filter can impair the air flow in the pressure transducer and thus interfere with its optimal function
